

Heat Stabilizer Pherst-ODPP

Chemical name: Isooctyl Diphenyl Phosphite

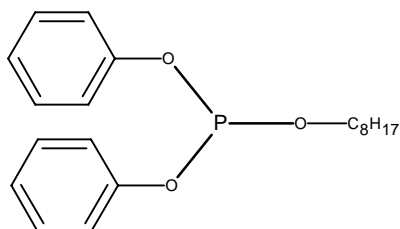

Equivalent: Weston ODPP (Chemtura)

Molecular formula: C₂₀H₂₇O₃P

Molecular weight: 346.4

CAS No.: 26401-27-4

Structural formula:

SPECIFICATIONS

Appearance: Colorless transparent liquid

Acid value (mg KOH/g): 0.5 max

Refractive index, @25 °C: 1.520~1.530

Density, @25 °C: 1.035~1.045

APPLICATIONS

As assisting anti-oxidant suitable for PVC, PP, PS, polyester, ABS resin, epoxy resin etc. As chelating agent of PVC products; also used in rolling wrapping film, profiled bar and cables etc.

PACKING

225kg/drum
